Subiectul B. ELEMENTE DE TERMODINAMICĂ

| III.a. | |
|--------|---|
| | Reprezentare corectă |
| b. | |
| | $\Delta U_{ABC} = \nu C_V (T_C - T_A)$ |
| | $\Delta U_{ABC} = \nu C_V (T_C - T_A)$ $\Delta U_{ABC} = \frac{5}{2} (\rho_C V_C - \rho_A V_A)$ |
| | Rezultat final: $\Delta U_{ABC} = 10^4 \text{ J}$ |
| C. | |
| | $Q_{pr} = Q_{AB} + Q_{BC}$ |
| | $Q_{pr} = Q_{AB} + Q_{BC}$ $Q_{BC} = \nu R T_B \ln \frac{V_C}{V_B}$ |
| | $Q_{AB} = v \frac{5}{2} R(T_B - T_A)$ |
| | Rezultat final: $Q_{pr} = 8 \text{ kJ}$ |
| d. | |
| | $L_{CA} = \rho_A (V_A - V_C)$ |
| | Rezultat final: $L_{CA} = -4 \text{ kJ}$ |
